We Need Your Input!

New Jersey Conservation Foundation is renewing our application as an accredited land trust through the Land Trust Accreditation Commission, a national entity that recognizes land conservation organizations that meet quality standards for protecting important natural places and farmlands forever. We achieved accreditation in January 2013, and now, five years later, it is time for us to renew our accredited status.

The Land Trust Accreditation Commission asks that we share our renewal effort with partners, stakeholders and others familiar with our conservation work. We invite you to share your input. The Commission will accept signed, written comments on New Jersey Conservation Foundation's pending renewal application. The comments must relate to how New Jersey Conservation Foundation complies with national quality standards. These standards address the ethical and technical operation of a land trust. For the full list of standards, see <http://www.landtrustaccreditation.org/tips-and-tools/indicator-practices>.
